

Assignment – Principles of Design

A. Using magazines, find pictures that illustrate the following principles of design.

1. Proportion
2. Symmetrical Balance
3. Asymmetrical balance
4. Rhythm achieved through repetition
5. Rhythm achieved through radiation
6. Rhythm achieved through gradation
7. Rhythm achieved through transition
8. Emphasis
9. Unity

Under each picture, explain how the design principle is used and what effect it has on the room.
