

ePortfolio?

Check out the home ec blog page.... www.burnabymountainhomeec.weebly.com

Go to June 2015 archives and look over some of the previous blogs from other years.

1. Do you have an email account? Set up one...gmail or Hotmail will work.
2. Choose your platform. I used weebly. Other options are:
www.weebly.com
www.wix.com
www.blogspot.com
www.wordpress.com
www.freshgrade.com
3. Use your name as your domain name (for logging on purposes)
4. If on weebly choose the weebly domain name... top choice. You don't have to pay!
5. Things to include.....
6. About you
7. Where you are starting from (**show growth over the year**)
8. Any recipes we make in class. Chances are you will find them on the class site as well
'print' the recipe as a pdf file, then save in a baking folder.
9. 'tasty videos' like those off buzz feed, we make them
10. Stop motion videos
11. Cool foodie events you attend or host.... Ie Ms. Siverson went to [diner en blanc](#)
12. Reviews of recipes, or restaurants.

Once you have started your blog, you can rename it

1. Today.... Download and save the chocolate chip cookie recipe off the main site, use the one that has 280 ml of flour. This will be the first recipe we make in class
2. Add it to your blog
